

**Main Characteristics**

This 'SYNERGIE' subfund is invested in corporate bonds. Public sector borrowers are restricted to 10% of the portfolio. All holdings are investment grade (BBB- or higher) selected on the basis of a composite rating established using the same criteria as the benchmark ICE Merrill Lynch Global Large Cap Corporate Index. Companies deriving over 5 % of their revenue from weapons, gambling, nuclear energy, coal, tobacco or genetic engineering of crops (GMO) are excluded from investment. Portfolio management uses an index tracking approach based on optimised sampling. Currency risk is systematically hedged against CHF.
